

Join us for the 2nd Annual

School Recycling and Composting Summit

at MassRecycle's Recycling and Organics Conference & Tradeshow

Tuesday, March 27, 8:00 - 5:00 • Holiday Inn Conference Center, Boxborough, MA

To help schools improve recycling and reduce costs, MassRecycle is hosting the 2nd annual **School Recycling Summit** as part of our Conference and Trade Show.

This summit will bring together a wide variety of **school officials, including school facility managers, custodial staff, food service directors, administrators, teachers, green team leaders, parents, volunteers, and more** to learn ways to improve recycling, reduce costs, increase efficiency, and educate students on ways to help their schools become more sustainable.

Learn from others who have implemented effective programs in recycling, waste reduction, and food waste management. Get tips on how to build an effective green team. Enjoy networking opportunities with school officials from across the state that share your interest in making schools more environmentally sustainable.

Three special workshop sessions for schools:

Elementary, Middle and High: Successful School Recycling and Composting Programs	Common Problems and Solutions: Roundtable Discussion	Building Partnerships after the Conference: Projects, Partners and Grants
Representatives from one elementary, middle and high school with successful recycling and waste reduction programs share lessons learned and best practices for success in their schools.	Sit down with other teachers, facility managers and parents from across the state to discuss common obstacles in implementing waste reduction programs and potential solutions to these challenges.	This session is all about green project ideas you can implement between the conference and the end of the school year. Several environmental education organizations will share K-12 resources they offer.

Plus: Presentation of Keep America Beautiful's Recycle-Bowl Massachusetts Award

For more information about the Conference, including 16 workshop sessions and over 50 vendors, visit www.massrecycle.org/conference, or call 617-338-0244.

Register today at www.massrecycle.org/conference

Fees: \$65 for MassRecycle Members, \$85 Non-Members • Online Payment Options: Invoice or Credit Card
